Surround yourself with a blend of beauty, security and privacy

More than just a physical boundary or privacy screen, your fence is an opportunity to make a strong and stylish design statement. Whether inspired by your home's colour palette, or the natural environment, your fence deserves careful consideration.

At Stag Fencing, we offer a wide range of styles, colours, and designs to bring your vision to life. Whether building a new fence or replacing an old one, our inspired options allow you to beautifully complement your home or blend seamlessly with the natural surroundings.

Steel **COLORBOND®** fences are strong, secure, durable and attractive. They require little maintenance and make a great investment that adds appeal and value to any building or landscape.

Make a confident choice with COLORBOND® steel fencing

- ✓ A fence built to last
- ✓ Fire resistant
- ✓ Durable and easy to maintain
- ✓ Won't rot, burn or be eaten by termites
- ✓ Better security and privacy
- ✓ Available in many different colours and styles
- ✓ Design flexibility
- ✓ Environmentally friendly fencing option

COLORBOND® Fencing Profiles

With its clean, crisp lines, **COLORBOND®** steel looks great from both sides of the fence. Select from two profile options:

Harmony

Same side incorporates a profiled sheet that is identical on both sides of the fence.

Trimclad

Traditional look with a different profile to each side of the fence.

HARMONY

TRIMCLAD

COLORBOND® Colours

COLORBOND® steel fence colours are inspired by Australia's own magnificent backyard. Choose from bold, light, dark, cool or warm to find the perfect colour to suit your home.

COLORBOND® Durability

Since **COLORBOND®** fencing is made of steel, it won't be eaten by termites or rot. It's also essentially fireproof, and can even help protect your home and yard in the event of a bushfire.

COLORBOND® steel panels are made in Australia from Bluescope steel which comes with a 10 year warranty. They feature a Zincalume steel base, which delivers anti-corrosion performance. All you have to do for maintenance is ensure the bottom of the fence is kept clean from debris and dirt, and occasionally wash the fence. Since steel is a completely recyclable material, using a steel fence is an eco-friendly option.

COLORBOND® Design Enhancements

Lattice or Slat Fence Extension

Colorbond fencing may be combined with lattice panels or slat screen tops to increase your privacy as an added feature.

Lattice tops and slat screens are available in various designs:

VERTEX

DIAMOND

COBBLE

SQUARED

HORIZON

SUNBURST

Retaining Wall Solution

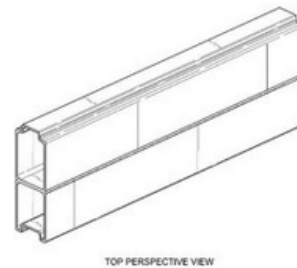

Whether it's for retaining your boundary or underneath fences, Fibrewall offers a smart and efficient solution:

- 1) Lightweight:** Fibrewall is designed to be lightweight, making it easy to handle during installation.
- 2) Durability:** Our Fibrewall solution is built to withstand the test of time, ensuring long-lasting performance.
- 3) Easy Installation:** Installing Fibrewall is a breeze, saving you time and effort.

Traditional concrete and limestone retaining walls can be cumbersome and heavy, difficult to install and occupy precious living space. Our innovative Fibrewall is the solution.

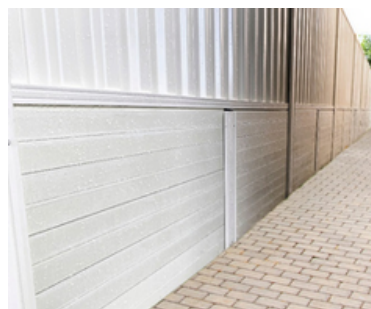

Fibrewall Retaining

An extruded Fibrewall stackable sleeper designed to be used both as a plinth under steel panel fences or as a retaining wall sleeper. Comes in two sizes to easily fit your desired application, 2380mm or 3150mm long x 150mm high by 50mm wide. Easily width adjustable – simply cut stackable sleeper to your desired length.

Features and Benefits

- ✓ A super tough design and engineered to retain up to 1.2m high of soil
- ✓ Patented Design
- ✓ Sits neatly under Colorbond fences
- ✓ Perfect for preventing weeds or debris from protruding through gaps in fence, and can also be used to level or increase the base height of the fence
- ✓ Sturdy design with a 20-year guarantee
- ✓ Unique design where bottom of the sleeper clips onto next sleeper ensuring a straight and seamless finish
- ✓ Ideal solution for garden edging
- ✓ Comes in a range of Colorbond colours and wood look options

PVC FENCING

PVC vinyl fencing is a great solution for many domestic applications. It's made from essentially weatherproof vinyl material that will never need painting or refinishing.

Benefits of PVC Fencing

- ✓ Lifetime guarantee on materials of 30+ years
- ✓ Maintenance free
- ✓ Graffiti resistant
- ✓ Termite free
- ✓ Never needs painting
- ✓ Free of harmful chemicals like Arsenic, Lead & Creosote

Picket Fencing Options

Modern Picket

Modern Picket Fencing with its closed top rail style is ideal for front boundary fencing, or between brick pillars. This cost-effective solution is half the price of its aluminium counterpart and just as durable. Vertical paling's give your house that modern look.

New England Picket

If you love that classic white wooden picket fence look but are hesitant due to the high-maintenance nature of timber, our New England flat PVC picket fencing is a great alternative. It ticks all the boxes: it's aesthetically pleasing, durable and requires little maintenance. This flat-top style works well as a boundary fence or a landscaping feature to divide spaces within your garden.

Gothic Curved Top Picket

Want to embrace a distinctive style for your outdoor space? Gothic scalloped PVC picket fence is a great way to add a touch of colonial elegance and visual flair while creating a functional barrier. Characterised by its classic scallop shape, this fence style has successive descending and ascending pickets that dip in the middle and rise towards the posts.

Hamptons Picket

The fresh, modern look of a PVC Hamptons fence makes a great addition to homes of various styles, whether you're in a classic bungalow, Federation home or something more contemporary. This style is a three-rail system, with the first set of vertical pickets measuring 785mm high, sitting below an open top section with rail measuring up to 1030mm high.

PVC Privacy Fencing

A PVC privacy fence offers both security and style and is an attractive alternative to other full-privacy fencing materials like Colorbond. Crisp white PVC privacy fencing gives that light, bright and breezy Hamptons feel that has become so popular here in sunny Perth. PVC privacy is extraordinarily durable and rust-resistant, making it a great fencing material to suit Perth's harsh wind, sun and salty air.

Combo Fencing

A PVC combo fence is the perfect front fence solution, meeting compliance standards for most Councils while providing both privacy and stylish aesthetics. This versatile fencing option offers a contemporary alternative, combining the elegance of PVC with the practicality of a combo design.

Our PVC Combo fences have a solid lower panel and beautiful slat detailing on top. Slat toppers come in 300mm or 600mm heights, so you can choose your privacy level. You can also customise your PVC semi-privacy fencing with post caps in the above-stated styles.

Rural PVC Fencing

Rural fencing comes with one, two or three rail options and is perfect for a farm style fence. It is an excellent alternative to wood, steel or wire because of its durability.

The rails are reinforced with internal ribs, making the fence strong enough to support an adult's weight (for example climbing on or over the fence). A horse leaning on the fence will not break the rails as they are designed to flex and return to their original position. The specially designed notched system allows the rails to pop out of the post under severe impact.

PVC Options

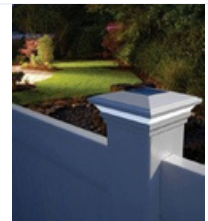

PVC arbour – Add a stylish entrance with our arbour that fits with all of our picket fencing styles.

Letterbox – Can be inserted into all styles of our PVC picket or privacy range.

Letterbox – Our standalone letterbox with its beach style look is perfect for our PVC picket range.

Solar lights can be added to both our Picket and Full Privacy range to showcase your new fence.

Upgrade your flat caps to our flared out New England caps to enhance your style.

Add a unique style with our Gothic caps, perfect for curved top styles or making a statement on your PVC privacy fence.

PVC Planter Boxes come in a range of sizes and are the perfect complement to your PVC fence.

ALUMINIUM SLAT FENCING

Slat fencing is a popular choice for modern homes as it adds an appeal and stylish look whilst being a very durable fencing option. It comes with a variety of styles powder-coated to your colour of choice. Alternatively, you can select from timber pattern designs including Jarrah, Cedar and Oak.

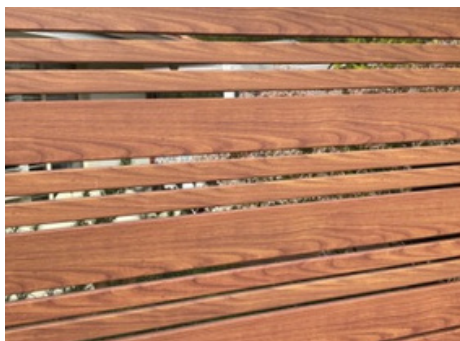

Aluminium Slat Fences can be customised, allowing you to complement your home or business without compromising its security features.

Benefits of Aluminium Slat Fences and Gates

Many people are now using slat fencing in their yards and gardens. It provides many benefits including:

- ✓ Available in a variety of finishes to complement your decor
- ✓ Made of long-lasting aluminium
- ✓ Fast installation
- ✓ Easy to maintain
- ✓ Made in Australia, with Australia's weather conditions in mind
- ✓ 7-year warranty on materials, covering the finish and colour

Aluminium Slat Fencing Designs

Wood Grain / Wood Look Aluminium Slat Fencing

Gives an outstanding timber look with its powder coating, closely resembling natural timber.

Powder Coated Aluminium Slats

A modern and minimalist style. Stag Fencing recommend the Colorbond colour range, as it's easily matched and designed for Australian homes.

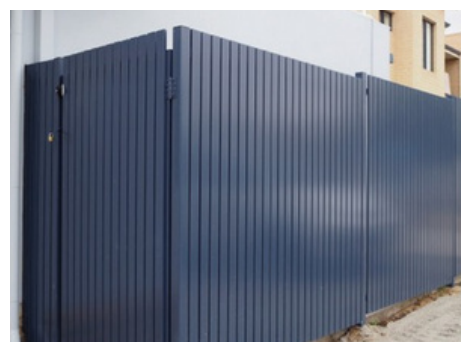

Aluminium Horizontal Slat Fencing

A popular choice because of its versatility and easy install design. This type of fence is best suited to allow privacy while still allowing semi-permeable views. Slats come in various width sizes, including 38mm, 65mm or 100mm and can be installed with any size gap between slats.

Vertical Aluminium Slat Fencing

Offers a unique look with a close resemblance to picket fencing. Ideal for the front of your property.

Louvre Slat Fencing

This slat fencing design gives you the option to either enclose an area or open it up to views. Typically installed around alfresco areas that offer good views but can also allow for privacy or protection against the sun.

POOL FENCING

Pool fences are designed to not only provide security and safety but also complement the landscape of your property. Ensure that your pool is safe, while maintaining a modern look and feel is possible with choosing the right fence type for your area.

Largest Range of Pool Fencing Options

Discover Australia's largest range of pool styles at Stag Fencing. Our extensive selection features patented design options that combine safety, style, and innovation. Whether you're looking for sleek glass panels, durable aluminum, or custom designs, we have the perfect solution to enhance your pool area. Trust us to provide top- quality fencing that meets all safety standards while adding a touch of elegance to your outdoor space.

Frameless Glass Pool Fencing

Longing for a sleek, inviting pool fence solution that doesn't compromise on safety? Made from highly durable safety glass panels, frameless glass pool fencing keeps your pool area secure without spoiling your view. It's a great option for those wanting to maintain a clean, spacious aesthetic in their outdoor area.

Types of Fencing

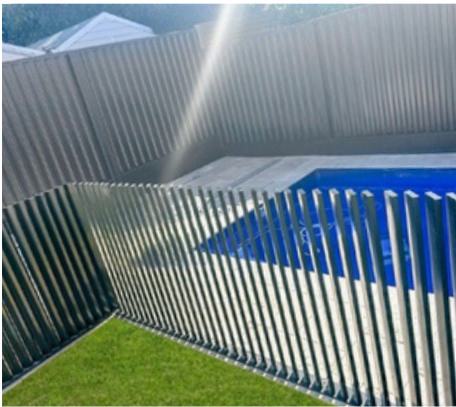

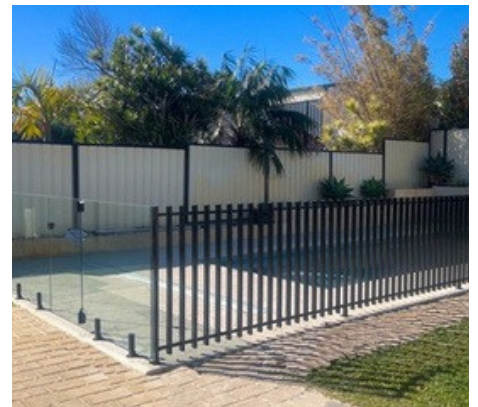

Perforated Pool Fencing

If you're searching for a durable, practical and visually appealing solution to secure your pool area, consider a perforated pool fence. Also known as 'perf' pool fencing, it's made from sheets of perforated marine-grade aluminium, with tiny 9mm holes punched close together to provide excellent visibility similar to glass. But unlike frameless glass or semi-frameless glass fences, perf pool fencing won't become cloudy from splash marks and grubby fingerprints – meaning you can spend less time cleaning your pool fence and more time enjoying your pool!

Barr Fencing

Barr fencing is an exciting innovation in aluminium batten fencing. It's the perfect solution for homeowners looking for a stylish and modern pool fence or those wanting to create the popular "floating battens" look. Below, we've shared everything you need to know about this solid and visually stunning product.

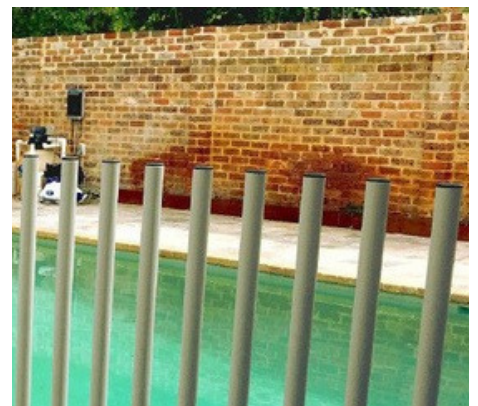

Frameless Batten

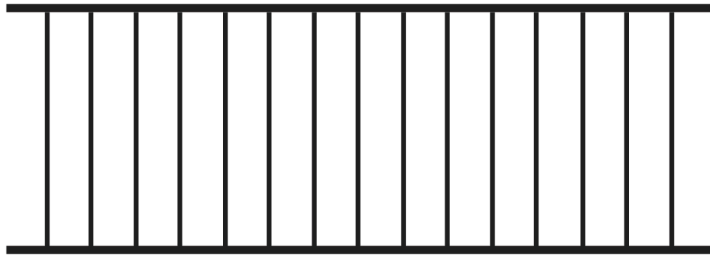

Frameless battens introduce a patented system that revolutionises architectural screening and fences. Whether for residential or commercial applications, these batten-style screens offer both aesthetics and functionality.

Round Batten

At Stag Fencing, we're excited to introduce a groundbreaking architectural fencing solution, **PIK® Fencing**. Not only does it prioritise safety, but it also elevates aesthetics to new heights.

CHAINMESH & ENCLOSURES

Chain mesh cages? Chainwire storage cages? Car park storage solutions using chainmesh? Yes to all of the above, and these are options well worth considering when you need to secure your properties and possessions in a practical, cost-effective manner.

GARRISON FENCING

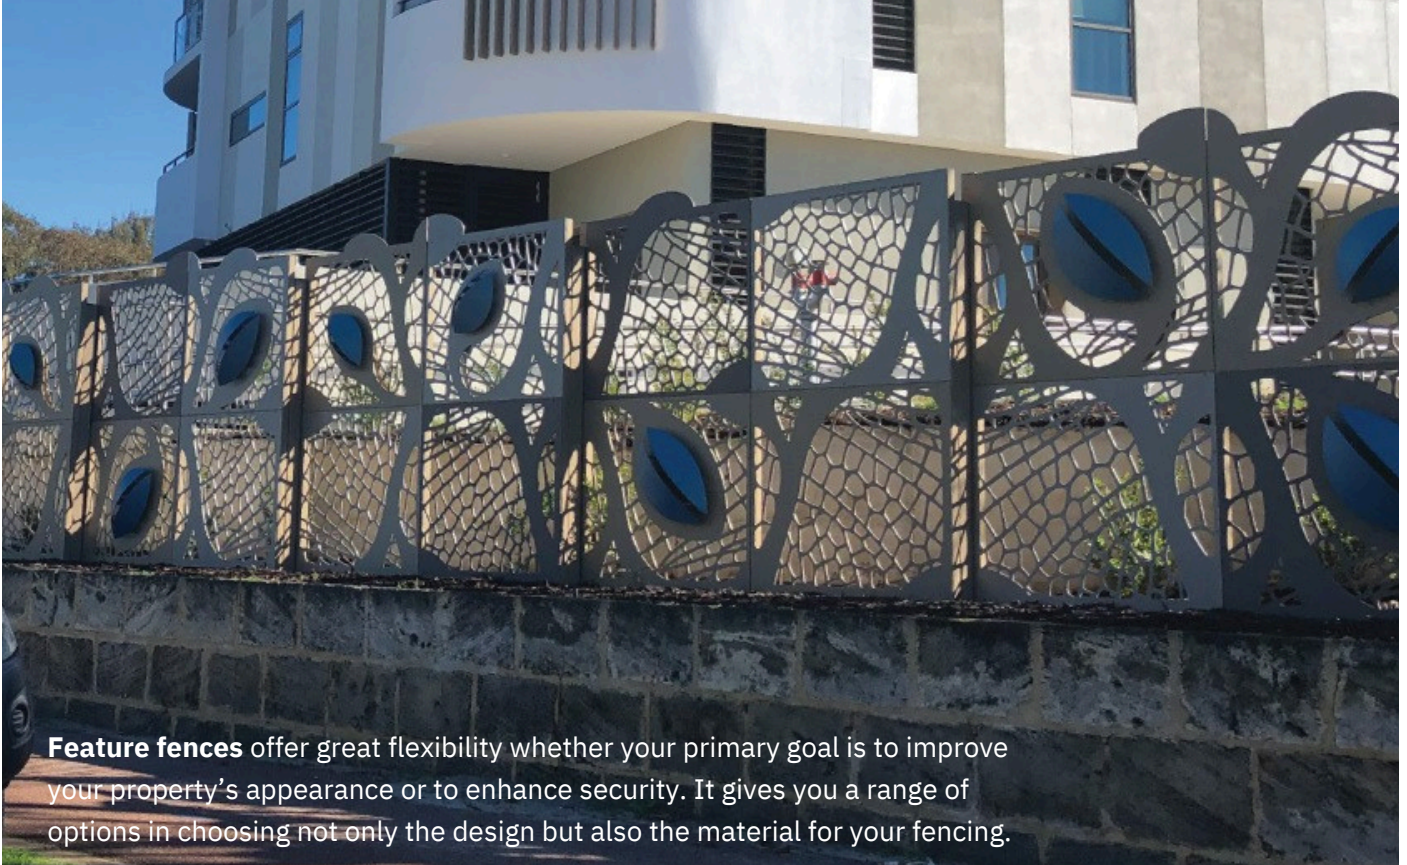

Garrison fencing is an excellent solution when you require a high level of security for your property. Ideal for schools, sporting facilities and commercial or industrial properties, this is a smart-looking fence that makes intrusion incredibly difficult, and once installed, it instantly adds value.

BLADE FENCING

Want a sleek, modern fence that makes a bold statement? Blade fencing (also known as a batten fence or flat bar fence) has a striking appearance and is perfect for adding a secure boundary to your property while maintaining an open outlook.

FEATURE FENCING

Feature fences offer great flexibility whether your primary goal is to improve your property's appearance or to enhance security. It gives you a range of options in choosing not only the design but also the material for your fencing.

Feature fencing can be made from the following: wood/ timber fence, vinyl/ PVC fencing, metal, wrought iron, steel fencing, chainlink, brushwood or a combination of any of these fence types.

Benefits of Feature Fencing

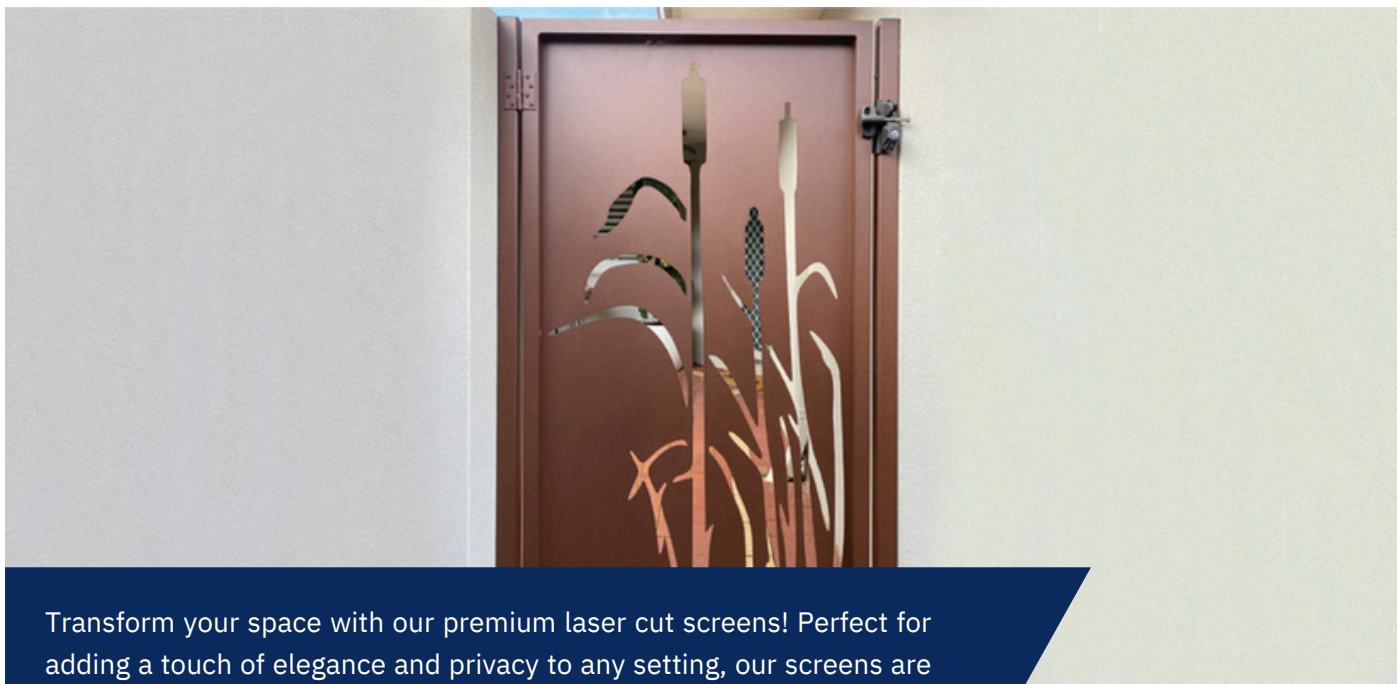

Many people are now using feature fencing in their yards and gardens. It provides many benefits including:

- ✓ Flexible design
- ✓ Provides safety and privacy in a modern, elegant way
- ✓ Adds value to your property's aesthetics
- ✓ Locally made

LASER CUT SCREEN DESIGNS

Transform your space with our premium laser cut screens! Perfect for adding a touch of elegance and privacy to any setting, our screens are crafted with precision and durability in mind. Ideal for both residential and commercial applications.

Our screens are available in a range of 2 exciting materials & finish options, including **Weathered Steel (Corten)** and **Powder Coated Aluminum**.

NOTE: Most designs can be customised to different screen sizes and shapes and can be fabricated to allow for various fixing requirements. The designs shown are based on a ratio of 1:2 (i.e. 900 x 1800mm) so screen designs outside of this ratio may vary slightly to suit.
